

4. Module - XSS Filter Evasion and WAF Bypassing

1. Bypassing Blacklisting Filters

https://cheatsheetseries.owasp.org/cheatsheets/XSS_Filter_Evasion_Cheat_Sheet.html

<http://html5sec.org/>

-> most common scenarios:

1. XSS vector block by the application
2. XSS vector is sanitized
3. XSS vector is filtered or block by the browser

11 until the end in the slides
